Table 14. Incidence rates¹ for nonfatal occupational injuries and illnesses involving days away from work² per 10,000 full-time workers for selected natures of injuries or illnesses and industry division, 2001 -- Continued

Indiana--private industry

Nature	Private industry ³	Goods producing				Service producing					
		Agricul- ture, forestry, and fishing ³	Mining ⁴	Construc- tion	Manufac- turing	Transpor- tation and public utilities ⁵	Whole- sale trade	Retail trade	Finance, insurance, and real estate	Services	
Rheumatism, except the back Tendonitis	2.4 1.6				5.0 3.2				 	1.1	
Symptoms, Signs, and III-Defined Conditions Symptoms Symptoms involving respiratory system		 			 					1.4 1.4	
and chest Symptoms involving respiratory system and chest, n.e.c.										1.4 1.3	

 $^{^1\,}$ Incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as: (N/EH) x 20,000,000 where

N = number of injuries and illnesses

EH = total hours worked by all employees during calendar year

20,000,000 = base for 10,000 equivalent full-time workers

(working 40 hours per week, 50 weeks per year).

establishments not governed by the Mine Safety and Health Administration (MSHA) rules and reporting, such as those in Oil and Gas Extraction.

NOTE: Dashes indicate data that are not available or data for incidence rates less than 1.0 per 10,000 full-time workers. Major classifications may include detailed classifications not shown separately.

n.e.c. = not elsewhere classified.

SOURCE: Bureau of Labor Statistics, U.S. Department of Labor, Survey of Occupational Injuries and Illnesses, in cooperation with participating State agencies.

² Days-away-from-work cases include those which result in days away from work with or without restricted work activity.

³ Excludes farms with fewer than 11 employees.

⁴ Data conforming to OSHA definitions for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. Data for Mining (Division B in the Standard Industrial Classification Manual, 1987 edition) include

Data conforming to OSHA definitions for employers in railroad transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation.
